

# DaSy Toolbox to Increase Virtual Engagement

## Recommended Tools

Tool	Description	How to Get Started
Excel	Whether you need powerful data visualizations, integrated polling, easy-to-read reports to share with stakeholders, or interactive data dashboards, you may already have the solution at your fingertips with Microsoft Excel. Don't overlook this easy-to-use spreadsheet tool that can handle everything from simple conditional formatting to complex data analysis.	<a href="#">5 Easy and Powerful Excel Features You May Not Know About</a>
Padlet	Padlet is hosted on a real-time collaborative web platform. The facilitator of the meeting organizes the "wall/board," and participants type responses. Participants can see other responses as they are entered and use the features to agree with others, prioritize, and add photos or documents.	<a href="#">Learn more about Padlet</a>
Poll Everywhere	Poll Everywhere helps you capture powerful feedback instantly during virtual meetings. Participants can engage using their mobile phones, Twitter, or web browsers. Responses to questions, word clouds, quizzes, etc. can be displayed live in PowerPoint, Keynote, and on the web.	<a href="#">Watch recorded PollEverywhere webinars</a>
Slido	Slido is an application that engages participants through various means including multiple choice Q&A, polls, word clouds, quizzes, rating, and prioritizing. The app aggregates responses in real-time, and participants can watch the display change as answers are entered.	<a href="#">Watch recorded Slido webinars</a>
Zoom	Zoom is the leader in modern enterprise video communications, with an easy, reliable cloud platform for video and audio conferencing, chat, and webinars. Now with more robust security features and integrated accessibility features, as well as traditional standbys like chat and polls, this meeting platform is easy to use and flexible enough to meet your virtual meeting needs.	<a href="#">Watch recorded Zoom training sessions</a>
