## 2023 DaSy State of the States: Data Systems Survey Findings

Since 2013, the DaSy Center has tracked the status of Part C and Part B 619 state data systems to understand states' technical assistance needs, provide stakeholders with a national picture of what capacities state data systems have, and to track how those capacities are changing over time. Most recently, in fall 2023, DaSy collected comprehensive information on Part C and Part B 619 data systems using an online survey developed in coordination with the IDEA Infant and Toddler Coordinators Association for Part C programs and a parallel survey for Part B 619 programs. The Part C and Part B 619 surveys contained many of the same items.

All 56 Part C and 60 Part B 619 coordinators received a unique link to the online survey via email. Coordinators were encouraged to consult with data managers and others who are familiar with the state's early childhood data systems to compile their state's responses. DaSy received responses to the survey from Part C program staff in 47 states and entities (70%) and from Part B 619 program staff in 49 states and entities (73%).

The tables in this document show the aggregated survey data across states for each survey item. Other analyses of these data are available on DaSy's website (<https://dasycenter.org/state-of-the-states-2023/>). These include the 2023 State of the States [maps](#), which present key indicators of a high-quality data system derived from the survey data and disaggregated by state/entity. DaSy will publish two reports of the 2023 survey data, one with key takeaways from the 2023 survey and one summarizing changes in state data systems over the ten years of State of the States survey administration (2013 to 2023). These reports will be linked on the 2023 State of the States page

Part C and Part B 619 coordinators may request a copy of their state's survey responses by contacting their DaSy state TA liaison (<https://dasycenter.org/technical-assistance/state-technical-assistance-liaisons/>).

### *How to read the tables*

The tables below present the data reported by Part C program staff from 47 states and entities and Part B 619 program staff in 49 states and entities. The tables provide each survey item, the associated number of respondents (N), and frequency of responses (%) for each survey item. Some survey items were asked only of Part C or of Part B 619 respondents. The (\*) symbol indicates that an item was not asked. Missing data are marked as (--). Missing data indicate that survey respondents left a particular item blank. The (†) symbol indicates that an item was a multi-select question, thus frequencies may not add up to 100.

The use of brackets in a survey item indicates that the item was asked in both the Part C and the Part B 619 surveys, and that each respondent reported about their own program. For example, one item reads, "State has at least one electronic centralized statewide data system that contains personally identifiable child level data for all or nearly all individual children who are enrolled and receiving [Part C/Part B 619] services." Part C respondents reported about these data in regard to children enrolled in and receiving Part C services; respondents from Part B 619 programs reported about these data in regard to children enrolled in and receiving Part B 619 services.

**Table 1. General Part C and Part B 619 State-Level Data Systems Information**

Survey Item	Part C		Part B 619	
	%	N	%	N
1a. State has an electronic data system that contains personally identifiable child level data	100	47	100	49
Yes	98	46	96	47
No	2	1	4	2
Missing	--	0	--	0
1b. Developer of child-level data system	†	46	†	49

**Table 21. Tools and Procedures Used to Verify the Reliability and Validity of Part C/Part B 619 Data**

Survey Items	Part C		Part B 619	
	%	N	%	N
21a. State has annual or other regularly scheduled training to help ensure the quality of data	100	45	100	46
Yes	80	36	91	42
No	20	9	9	4
Missing	--	1	--	1
21b. State uses comparison of electronic data to original paper document (e.g., data audit) to help ensure the quality of data	100	45	100	45
Yes	67	30	58	26
No	33	15	42	19
Missing	--	1	--	2
21c. State has a data dictionary to help ensure the quality of data	100	45	100	45
Yes	56	25	71	32
No	44	20	29	13
Missing	--	1	--	2
21d. State has a data system user manual to help ensure the quality of data	100	45	100	45
Yes	82	37	84	38
No	18	8	16	7
Missing	--	1	--	2
21e. State uses verification visits that randomly check and verify child data to help ensure the quality of data	100	45	100	45
Yes	62	28	67	30
No	38	17	33	15
Missing	--	1	--	2
21f. State has year-to-year local program change reports to help ensure the quality of data	100	45	100	44
Yes	58	26	55	24
No	42	19	45	20
Missing	--	1	--	3
21g. State has other local data quality reports to help ensure the quality of data	100	45	100	46
Yes	89	40	87	40
No	11	5	13	6
Missing	--	1	--	1
21h. State has other tools in place to help ensure the quality of data that the state receives from local programs	100	40	100	35
Yes	25	10	14	5
No	75	30	86	30
Missing	--	6	--	12

Note. Cells with (--) were not asked on program survey.

**Table 22. Types of Reports Available from Part C and Part B 619 Data System or Separate Reporting Application**

Survey Items	Part C		Part B 619	
	%	N	%	N
22a. Types of reports included in data system	†	46	†	45
Canned (pre-built) reports for 618 data	73	33	64	29
Canned reports for APR indicators	80	36	67	30
Other canned reports	82	37	38	17
Ad-hoc reporting capacity	62	28	49	22
None	4	2	7	3
Missing	--	0	--	2
22b. Reporting tools used by the [Part C/Part B 619] program in generating reports	†	46	†	45
Other server-based or local machine-based tools (e.g., Access, Excel, SPSS)	82	37	84	38
Tableau	16	7	18	8
Power BI	20	9	24	11
Other business intelligence tools (e.g., SAS)	24	11	20	9
Other	11	5	0	0

## About Us

The contents of this report were developed under a grant from the U.S. Department of Education, #H373Z240001. The contents and resources do not necessarily represent the policy of the U.S. Department of Education, and you should not assume endorsement by the Federal Government. Project Officers: Meredith Miceli and Alexis Lessans.

The DaSy Center is a national technical assistance center funded by the U.S. Department of Education, Office of Special Education Programs. The DaSy Center works with states to support IDEA early intervention and early childhood special education state programs in the development or enhancement of coordinated early childhood longitudinal data systems.

To learn more about the DaSy Center, visit the DaSy Center website at <http://www.dasycenter.org/>.
